CMA Subpoena Response Data

Source: CMA00115 – CMA00186

Column Header	Field	Estimated Definition
A	ALevelID	Unused, undefined field
B	CMAID	Internal CMA ID number assigned to physician
C	ALName	Physician name
D	ALGroup	Physician group name-but field was rarely if ever used.
E	ALMDFinancialImpact	Unused, undefined field
F	ALCreatedDate	Date the first record for this physician was created in the database
G	ALCreatedBy	CMA staff who created the first ticket on this physician
H	ALContactPerson	Primary contact person for practice
I	ProblemID	Unused, undefined field
J	PType	Unused, undefined field
K	PTracking	Unused, undefined field
L	PContact	Practice contact person for that specific ticket
M	PSourceofContact	In Call Tracker there are several choices to select from as to how the caller got to us called "source of contact." What we see is a drop down menu of text. Examples are Reimbursement Helpline, direct line, email, etc. Somehow, the system converts the text to a number. This field was never used.
N	PPayorTypeName	Unused, undefined field
O	PPayorName	Unused, undefined field
P	chrPayorName	Name of payor practice is calling about
Q	PMDFinancialImpact	Financial Impact-field is not a required field and was rarely used
R	PInformation	Unused, undefined field
S	PInformationEducationDesc	Unused, undefined field
T	PFaxbackNo	Fax back function was only available to legal staff using database. If they faxed an On Call Document, they could do so using the electronic "faxback" option without having to manually fax. The system sent a fax to the recipient based on data entered by staff. CES never had the ability to use this functionality.
U	PCaseWorkDesc	Field where staff could indicate the specific action(s) they had to take on the issue. Field was not required and was rarely if ever used by CES.
V	PReferral	Mainly used by Legal department if the physician was referred to other CMA staff, another society, an attorney, consultant, etc. Rarely if ever used by CES staff.
W	PReferralDesc	Indicates the name of the person the physician was referred to. Rarely if ever used by CES staff.
X	POther	Free text note field where CES entered notes on the progress/status of the issue.
Y	PResolved	TRUE indicates that we checked the "resolved" box. FALSE indicates we did not check the "resolved" box.

CMA Subpoena Response Data

Source: CMA00115 – CMA00186

Column Header	Field	Estimated Definition
Z	PResolvedDate	Date the "resolved" box was checked. It automatically populated based on the date you checked the "resolved" box.
AA	PInitialContactDate	Manual entry field that was designed to indicate the date we received the call if different from the day the ticket was created. Rarely used by CES
